

Halal Pharmaceuticals FROM CONCEPT TO REALITY

10th APRIL '2019

9 am to 5 pm

Overview

Advancement of modern science and technology has brought various potential benefits to humankind, but at the same time, ethical concerns, related to Muslims and Halal products. Theoretically, halal is possible to be the benchmark for quality. It specifically refers whatever is permitted by Shariah Islamiah and applies to every activity carried out by mankind. Halal pharmaceuticals is another step forward of GMP specifically for muslims.

Halal Pharmaceutical Products

- Has a high potential of growth market in the Muslim world.
